

SOCIALS STUDIES GR. 9 PROJECT:

Canada is made up of six main land form regions. A region is an area that has at least one unifying characteristic. A region might be determined by the nationality of the majority of people, the type of land, climate, vegetation or natural resources. These factors affect what jobs people have and how they live.

Six Land forms:

- 1) Canadian Shield
- 2) The Interior Plains
- 3) The Cordillera
- 4) The North
- 5) The Great Lakes Lowland
- 6) The Appalachian Highland

I want you to create one of the following projects either individually or in groups of two. Please note that groups need to be confirmed and approved by Mr. Wilms.

Projects:

Poster

Power point presentation

Web Page

Story

Children's story book with pictures

Travel Brochure

Criteria:

Your project must show the **diversity** of Canada through the 6 different regions. Your project must provide the following information:

- 1) A map of each region
- 2) A list of facts for each region: climate, land forms, people groups, etc.
- 3) Include pictures of geography/ landscapes for each region
- 4) Your project must meet the following Gr. 9 Socials Learning Outcome:

- *Describe and compare North America's diverse geographical regions.*

- Project is out of 100
- Please refer to Yale's cheating/plagiarizing policy
- Your project must have a bibliography

• **DUE DATE:** **FRIDAY SEPT. 23RD.**

Proposed Schedule:

- 1) 1 - 2 classes gathering research/ brainstorming ideas/ getting materials
- 2) 3 classes putting it all together.
- 3) 1 class to polish/ refine/ present
